Details about the first massacre : Al-bayda village

It is Systematic that Syrian Government's Armed Forces punish civilians from any area they clashes with their troops ,

dozens of threats to civilians through loudspeakers in all Syrian territories if shot one bullet against them from any area , then they will exterminate the whole area and as doing that they just want pretext to explode

This acts violate Customary IHRL , the applicable law in armed conflicts:

Rule 1. The parties to the conflict must at all times distinguish between civilians and combatants. Attacks may only be directed against combatants. Attacks must not be directed against civilians.

Rule 2. Acts or threats of violence the primary purpose of which is to spread terror among the civilian population are prohibited.

Rule 6. Civilians are protected against attack, unless and for such time as they take a direct part in hostilities.

Rule 7. The parties to the conflict must at all times distinguish between civilian objects and military objectives. Attacks may only be directed against military objectives. Attacks must not be directed against civilian objects.

Rule 10. Civilian objects are protected against attack, unless and for such time as they are military objectives.

In the early morning on Thursday 02/05/2013 , a small clash occurred on a military checkpoint near Al-Baiyda between few Armed rebel's fighters and Syrian Government's Armed Forces

(Noting that Baniyas is one of the most peaceful areas in Syria , cause it is Multi-denominational there is no armed opposition there)

After one or two hours Syrian Government's Armed Forces surrounded Al-Baiyda town and started the usual three phases before every massacre:

- 1- Siege , shelling , cut off electricity and communications
- 2- Stormed
- 3- Extrajudicial killings , slaughter , looting and arrest

According to survived family who fled from death in the massacre , some of them now in Turkey , they said : amid total cut off electricity and communications ; Syrian Government's Armed Forces shelled the town for several hours , then they started stormed the town accompanied with security forces , Shabiha from the neighboring Alawite villages and members of Lebanese Hezbollah (were recognizable cause of their Lebanese accent) and begun terribly slaughtering , killing and executing people, using knives , cleavers , edged weapons and even smashing head to death with stones and then they burned many of the corpses .

(noting that inhabitants of AL-Baiyda is almost 6000 people)

A massacre is considered the worst and horrible massacre in the Syrian Revolution History ,they slaughtered , distorted , cut the organs of children and women then burned and then dumped the corpses on top of each other in streets

In the next day : Friday 3/5/2013 , almost at 10.00 am ,again random shilling and missiles on the town , and dozens of people tried to flee across the orchards .

And again stormed the village from Ajamah mountain's axis , and Marah village's axis (Christian majority) which didn't participant in the massacre or didn't get killed cause a clear orders to kill only Sunni people, then slaughtered citizens with knives , cleavers and field executions lasted to nearly 2 pm , of course prevent Friday prayers ritual.

Large number didn't immediately get killed, but they were arrested and took to Alzoba Alawite village , where we got news that they have been killed there

The corpses remain on the streets and in houses and have been rotting there

Many houses and cars have been burned

After that another Syrian Government's Armed Forces chased the families who fled from Al-Baiyda to orchards and neighboring towns , launched raids , prosecutions and arrests in tow areas : Agricultural Wata Albaida area and Sahm Albahr area , we got news about executions there , but we couldn't get eye witnesses or survivor to confirm

Syrian Government's Armed Forces imposed suffocating siege on Markeb and Basatin villages , they arrest dozens of citizens especially in the upper neighborhood of the village , where they took a large number of families (men , women , children) to Alkaokab village , while they were beating, assaulting and abusing them ., them they allowed children and women to return to their villages on foot . one of the parents told us that the reason for setting free children and women is to keep them as a hostage when they need .

Looting and arresting continued for two days (Friday and Saturday) , families saw trucks loaded with furniture conveyed to Alawite towns .

Survivor and eyewitnesses' accounts of the massacre :

A survivor's story : still alive and you can communicate with him :

" Regime's Forces burned my uncle and all of his children before me , they burned them alive " he said

The people make sure that one of the massacre chief instigator and overseer nicknamed (Ali al-Kayyali) , the real name is Mihraç Ural , Alawite of Turkish origins from Antakya

Details about the Second massacre : Ras Alnabaa village

Friday 3/5/2013

Ras Alnabaa : poor neighborhood , almost 400 m2 linked with the of Baniyas in two ways : 1- bridge known as Ras Alnabaa bridge , 2- and high way

In Thursday 2/5/2013, when the residents in Ras Alnabaa heard frequent news about the shelling and killing in Al- Baiyda , most of them carry their belongings and flee from the neighborhood to escape from death

When the residents tried to escape through the bridge , Syrian Government's Armed Forces at the bridge barrier prevented them to pass , and arrest all of them , they separated women , children and elders , and order them to back to the neighborhood , tortured and humiliated men , and ordered them to back to the neighborhood .

They tried to flee once few day ago before the massacre , but they have been prevented .

SNHR relies in this report on testimonies of few survivors , the most important is Abo Mohammad's testimony (he is still alive and u can contact with him) :

Friday down 3/5/2013 , After Syrian Government's Armed Forces prevented dozens of families to flee across the bridge on Ras Alnabaa – many of them used highway to flee .

At Friday noon approximate 2: 30 , Syrian Government's Armed Troops started the usual phases before every massacre Siege , shelling , cut off electricity and communications , Stormed , killings , slaughter , looting , arrest and burn .

Heavy artillery has been erected at the bottom of Ras Alnabaa bridge and another artillery at AlQoz bridge with few tanks , suddenly without any alarm stated heavy and deliberately shelling towards the local residents' houses , cause no one else there , heavy gunfire continued for about one hour .

After shelling , they started the next phase , where almost 1000 fighter perform house to house raid , they started executions , killing , slaughtering against families , entire families were annihilated .

Abo Mohamad Told us :

((storming strted 2:30 pm , Intruders were wearing black T-shirts and camouflage trousers , I saw them with my own eyes , I know some of them and I know their families , as Zahraa , Marouf , Shamali , Haidar families and others , they entered on regiments : 200 , then 150 ,then 200 ,they stormed the town with trucks , they gathered in Al-Qusor Alawite neighborhood , they

started to expels families of their houses , and executed them directly , it took five minutes to execute each family.

There were a child , they split his from his head to the middle of the back

I watched a young man , they threw him on the ground and then they swooped on him to stamp him with knives

I watched a woman , I know her family , she is well known in the neighborhood , they took off her clothes and raped her , I saw that in my eyes , then they cut her hand , then they half slaughtered her .

They burned on of the shop , they threw four children after cutting them , they also threw girl child into these fire while she was alive .

I am trying to summons up my strength and memory ,,,,,, there were a whole family , they ordered them to turn their faces to the walls , when they were loading their Russian weapons , a lady fall on the ground and survived form death , she is still alive .

I estimated the number of the killed and slaughtered people whom I saw with my eyes from neighbors and relatives about 250 victims , there are many areas in the neighborhood that I couldn't see .

Killing and slaughtering continued until 1 am , after midnight , after that in a while I escaped with my family through mountain , I knew then later that they allowed some of the survived residents to flee across the Corniche street .

How we were live with them , joke and laugh , eat and drink , are they human being like us!!??))
Abo Mohamad added finally

The villages from which buses of Shabiha came out , and participate in the massacre :

Kaabiya Farish – Dier Albashi – Alanaza – Tairo – Almowred – Alasiba – Alzoba – Alquz in Baniyas – Aldalia – Taanita – Hraison – Kawkab Aala Albasatine – Sarbione – Alkalooa – Barmaia – Bloza – in addition to many other villages that we couldn't recognized .

The residents also recognized some families of those villages that their sons participated in the massacre :

Ahmad family – Mashraqi family – Aateki family – Ali family – Atek family – Jadid family – Shamali family – Hasan family – Saaod family – Zahraa family – Al Daiob family

They killed all the members of Rajab family , father , mother even children , in horrible ways : slaughtering , explosion heads , a girl called Iman from Rajab family stayed alive for a while , then she died affected her horrific wounds

Yasin family , Taha family, Suliman family, Husain family, Zarzour family, and many other families disappeared off the face of the earth

They raid the well known media activist's house Ms. Baian Jaloul , who had a prominent role in transferring the ongoing news and images , they took revenge and killed her in a very horrific way , they rip her face with knives , cut her nose , stamped her in her hands and foot , and half slaughtered her to leave dying in pain . she was transferring and publishing the news of what's happening of kill and death to the last moments

Her fiancé (also a media activist also worked together in Baniyas coordinating) came to her before she died , she asked him to drink water , then she died in his hands

She wrote some of what she watched before she get killed in a moments : approximately 6:43 pm until 6:50 pm :

" - Allahu Akbar – Allahu Akbar (God is the greatest – God is the greatest)

-8 victims

- every 10 shells together

- they are pouring gasoline in houses and burning them

- Takebeer (say God is the greatest)

- extermination in Ras Alnabaa my friends

- pray for us

- no one is helping us

- Oh my God , martyrs on the streets

- we will die too

- shell in front of our house

- they burned houses and pour gasoline

- extermination in Ras Alnabaa ""

Photocopy of her testimony :

<https://docs.google.com/file/d/0B9Bj18tIYYKBa0V1cXFQaE9reEk/edit?usp=sharing>

An eyewitness told us that for more hatred and revenge : they were slaughtering children before their mothers' eyes , then they slaughtered mothers and the rest of the families .

He also told us that they stamped all the youth with knives and shot them with bullets

They didn't allowed for doctors or paramedics or anyone else to enter the neighborhood at all , and those who tried to enter the snipes deployed in Alquz Alawite neighborhood thwart them.

Then : Syrian Government's Armed Forces looted houses and loaded electric and home devices into trucks , and emptied the contents of the houses then burned a large number of them.

On Saturday 4/5/2013, and after the news of the ethnic cleansing massacre that took place in Ras Alnaaba neighborhood, Baniyas city experienced great displacement , when families arrived to the entrance of the other cities such as Jabla and Tartous , Syrian Government's Armed Forces prevented them from entering , then they came back to the rural areas especially the Christian villages who embraced them and erected tents for them , opened the churches to housing them .

Most of the displaced families gathered in two areas Alkharab and Zamrine

Sunday 5/5/2013 , again partial shelling on Ras Alnabaa sides , Syrian Government's Armed Forces allowed for some families to entre , where governmental teams have washed by water tanks the blood and carnage , and they brought the official media to show that the village had been liberated from Al-Qaeda and terrorism

Monday 6/5/2013 , Syrian Red Crescent's teams (SRC) escorted with Security forces and Shabiha entered the neighborhood and watched with the families the rotten corpses of women , children and men on the ground where the families were unable to bury them or even come close .

SRC escorted with Shabiha loaded dozens of corpses in four trucks using bulldozed , where they buried them in mass graves : tow trucks of corpses buried in an area known as Alnaznada and the other two trucks in the cemetery located in Almarqeb bridge .

This cemeteries well known for families and they can show it to any investigation commission

Arrested or victims

According to an eyewitnesses :

"" In Ras Alnabaa in Banyias figures indicated that almost 200 victims have been killed , and 100 are missing

The primary statistics are almost 600 victims , and 400 are missing unknown whether they were dead ,arrested , or the bodies kidnapped by security forces ""

One of the testimony in Ras Alnabaa said :

"" I saw from my house's window Shabiha while they were collecting corpses in the night in Ras Alnabaa square and put them in bags then in cars and left the square ""

Accounts of the massacre's survivors

"" When they started the attack of Ras Alnabaa few families hid in a basement dedicated to cattle fear of oppression and brutality of the regime , when the gangs finished committing their crimes , families started to check the deaths and saw what makes hair turning gray from rape , cutting organs , bodies' distortion , they found few people still alive because they were half slaughtered to make the slaughtered suffering more ""

"" I saw with my own eyes the family who survived from death by Shabiha , they told me that they heard their call with their leaders : we finished our mission successfully and we could eliminate them , when they came out of victims' houses , they shot the deaths and their houses again ""

Witness added "" the witnesses told me that when they were burning houses and victims , they scattered yellow atoms with a very bad smell on the floors and on the victims, it cause tremendous fire within seconds , some of the equipments and mechanisms who involved in the attack demolished some walls to hide the burned bodies underneath while they were saying loudly Labaika Ya Husain – Lbaika Ya Assad (Oh Assad , Oh Husain ""

Survived mother of the massacre :

" Army and Shabiha raid our house , they take out my husband and my son , they said we just want to inspect them then they called me out , and executed them in front of my eyes, I collapsed ""

Responsibility of States

Responsibility of States for Internationally Wrongful Acts

responsibility of states for internationally wrongful acts , similarly Customary IHL provides that states that the state is responsible for all acts committed by a members of its military and security forces , thus the states is responsible of wrongful acts committed by its military and security forces including crimes against humanity

Prohibition crimes against humanity are among the rules of jus cogens or peremptory , and punish such crimes is compulsory according to the General principles of international law . Moreover, the crimes against humanity are the height violations of basic human rights, such as the right to life and prohibition of torture or other cruel, inhuman and degrading treatment .In accordance with the principles of State responsibility in international law, Syrian Arabic Republic

hold responsibility for such crimes and violations, the duty to ensure punishment of the perpetrators individually and the duty to provide compensation to victims

SNHR hold all violations committed by Syrian Government Armed Forces to the Syrian government and the General Commander of the army and the armed forces, Bashar Al-Assad, and to all the officials of security branches , and to all financially and morally supporters to those forces, with the legal judicial and material consequences to the victims and their families in addition to all the reactions that will come by the families or their friends

Conclusions :

1- SNHR emphases that collective and individual killings as reported previously was deliberately targeted unarmed civilians , despite government claims that Alqaeda and terrorists committed these crimes , thus Syria Government's Armed Forces and Shabiha violated international human rights law that protects the right of life , in addition to being committed in non-international armed conflicts a crimes tantamount to war crimes and had all the conditions

2- SNHR emphases that the killing happened in Baniyas is crime against humanity , and elements of systematic and widespread attack against civilian population in the town , where there were a siege , shelling , ground attack , house searches , executions

The same applies on rape , kidnapping , looting and thefts even it is relatively less than Extrajudicial killings .

3- Random Attacks committed by Syrian Government's Armed Forces considered as violation of customary international humanitarian law , where they shelled a populated areas not a specific military target

4- Those attacks , especially bombings, have caused occasional losses of civilian life, injury or damage to civilian objects. There are very strong indications to believe that the damage was too excessive when compared to the expected military advantage.

5- Syrian Government's Armed Forces and Shabiha committed various types of cruel and inhuman acts of torture against people in violation of the State's obligations under international humanitarian law and international human rights law

6- SNHR emphasis that Syrian Government's Armed Forces and Shabiha war crime of looting. And contributed to the destruction and burning of property during searches of homes in the events of Baniyas.

7- The volume of the massacre and repeated nature of the massacres , the excessive force used and random nature of the shelling and coordinated nature of the attack couldn't be unless under the higher guidance which is a state policy
